OSSIAM FTSE 100 MINIMUM VARIANCE (UCITS ETF 1C (GBP) ISIN: LU0705291739) a sub-fund of OSSIAM LUX SICAV

Management Company: Ossiam, part of the Natixis group of companies

Objectives and Investment Policy

Investment objective:

The investment objective of OSSIAM FTSE 100 MINIMUM VARIANCE fund (the "Fund") is to replicate, before the Fund's fees and expenses, the performance of the FTSE 100 Minimum Variance Index closing level.

The FTSE 100 Minimum Variance Index (the "Index") is a total return index (net dividends reinvested) expressed in GBP, calculated and published by FTSE Group (the "Index Provider"). The index methodology was developed by FTSE jointly with Ossiam.

The FTSE 100 Minimum Variance Index reflects the performance of a dynamic selection among the 95 most liquid stocks from the FTSE 100 Index (the "Base Index") which tracks the performance of the 100 largest UK-domiciled blue chip companies, which pass screening for size and liquidity. Constituents of the Index will be selected on a quarterly basis and weighted according to an optimization procedure. As such, sector, company, country exposures in the Index will differ from those of the Base Index.

For a detailed description of the Index, see section "Description of the Index" in the relevant Fund Appendix of the Prospectus.

Investment policy:

In order to achieve its investment objective, the Fund will primarily invest, through physical replication, in all or part of the equity securities comprised in the index and in substantially the same weights as in the Index.

In addition and on an ancillary basis, the Fund may use other derivatives for hedging and investment purposes as described under "Use of Derivatives, Special Investment and Hedging Techniques" in the Prospectus.

The Reference Currency of the Fund is the British Pound (£).

The UCITS ETF 1C (GBP) shares are listed for trading on one or more stock exchanges and investors may buy or sell Shares through their usual broker on any trading day of the relevant stock exchange(s) which is also a Dealing Day in Luxembourg or, through a fund platform. Please contact your broker for additional information. The UCITS ETF 1C (GBP) Share Class is an accumulating Share Class therefore income derived from the Fund is reinvested. Please refer to the section entitled "Subscription, Transfer, Conversion and Redemption of shares" and the section entitled « Practical information » of the Fund appendix in the Prospectus for additional information.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within less than 5 years.

Risk and Reward Profile

The Fund is ranked 5 on the synthetic risk and reward indicator scale, which is based on historical data. Due to its exposure to equity markets, the Fund may experience important volatility, as expressed by its rank on the above scale. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Fund. The lowest category does not mean "risk free".

Special Risk Considerations

Index Risk: The value of the Fund's Shares is linked to the Index, the value of which may rise or fall. Hence, investors should note that the value of their investment could fall as well as rise and they should accept that there is no guarantee that the underlying methodology of the Index will indeed result in a return above any comparable investment strategy or that they will recover their initial investment.

Geographic concentration risk: Funds that concentrate investments in certain geographic regions may suffer losses, particularly when the economies of those regions experience difficulties or when investing in those regions become less attractive. Moreover, the markets in which the funds invest may be significantly affected by adverse political, economic or regulatory developments.

Please refer to the section entitled "General risk considerations" of the Prospectus for additional details on risks.
